**SNAPPS, a Mnemonic for a Learner-centered Model for Case Presentations to Preceptors in the Outpatient Setting**

The learner will:

1. Summarize briefly the history and findings
2. **N**arrow the differential to two or three relevant possibilities
3. **A**nalyze the differential by comparing and contrasting the possibilities
4. **P**robe the preceptor by asking questions about uncertainties, difficulties, or alternative approaches
5. **P**lan management for the patient's medical issues
6. **S**elect a case-related issue for self-directed learning
